

Submit portfolio assignments in Scholar

Submitting Portfolio Assignments

To submit a portfolio, you should first create it. Your instructor sees a snapshot of the portfolio in the state it was in when you submitted the assignment. Any edits that you make after you submit it will not be reflected in the submitted snapshot.

Once it's done, navigate to the area of the course in which the faculty member has created the portfolio assignment and click on it.

 **Portfolio assignment** 

 **Test Assignment 8/16** 

Availability: Item is available, but some students or groups may not have access.
Enabled: Adaptive Release
Tell me the main themes of motifs of The Old Man and the Sea.

Then, click on Select Portfolio.
