

Invite others to events in Google Calendar

CNU Connect's calendar allows you to schedule an event with multiple participants. To do so, create a new event by clicking on the "Create" button or dragging over the dates/times that you want..

Give the event a name, and select the date and time that you'd like to have the event. You can quickly add the names or email addresses of potential guests by clicking "Add guests", then typing in the name or email address of the desired guest.

For a more detailed approach to adding guests, Click More Options.

SUGGESTED TIMES

Guests Jan 30, 2018 10:00am
All participants can attend

Jan 30, 2018 10:30am
All participants can attend

Jan 30, 2018 11:00am

When you have added all attendees to the event, click "Save". You will be asked whether you want to send invitations. Click on "Send" to send the invitations. Your invitees will then receive an e-mail invite and be able to respond. You will receive e-mails with the invitees' responses, and their responses will be added to the event page.

You can simply click on a meeting in your calendar to see guests' responses.
