

Download and install SPSS-Faculty

Faculty

Install for Windows

Can you install SPSS?

These instructions only cover installing SPSS on your home computer. To install it on a CNU owned computer, you can use the self service portal to make a request.

Determining on Windows 10

On Windows 10, right-click on the start menu and choose System.

[blocked URL](#)

On the screen that comes up, the "System type" field will tell you whether you have a 32-bit or 64-bit system.

Getting a License Key

First, fill out the [SPSS Authorized License Request](#) . You must be logged in with your CNU account to fill out the form. If you're installing SPSS from the links in this article, choose 27 for your version number.

Once you do that, you'll receive an e-mail with your license number. You'll need that later in the process.

Getting SPSS

To download SPSS, [Follow the link here](#). If you're already signed in to CNU Connect, you'll be taken directly to the download link. If not, you'll see the Google sign-in page. Sign in with your CNU e-mail and password.

[blocked URL](#)

Either way, you'll then see the list of downloadable files. Select the Windows file and click on the Download button to download the file.

[blocked URL](#)

As the SPSS installer is a large file, you'll get a warning that Google Drive is unable to scan the file for viruses. Since this is a trusted CNU drive, click "Download anyway" and the file will download.

[blocked URL](#)

Installing SPSS

Navigate to where you downloaded the file and click SPSS_Statistics_25_win64.exe. If you aren't already logged in as an administrator, you'll be prompted to enter an administrator's credentials. If you do not have administrator credentials, you will not be able to continue the installation after this point; please contact the self-service portal for assistance.

[blocked URL](#)

After administrator credentials have been entered and recognized, the installer will start. Click Next.

[blocked URL](#)

You'll be presented with a license agreement. Accept the agreement and click Next.

[blocked URL](#)

You'll be asked if you want to install SPSS Statistics Essentials for Python. Click yes or no and click Next. If you don't know what Python is, you can click no.

[blocked URL](#)

If you choose to install Python, you'll have to accept two more license agreements and click Next.

[blocked URL](#) [blocked URL](#)

Either way, you'll be asked where to install SPSS. Unless you have a reason to install it somewhere other than the default, click Next.

[blocked URL](#)

Then, click Install to begin the installation.

[blocked URL](#)

The install will start. It will take a few minutes.

When it completes, you'll be given the option to start the SPSS License Authorization Wizard. Make sure the box is checked and click Finish.

[blocked URL](#)

The License Authorization Wizard will start. Choose "Authorized user license" and click Next.

[blocked URL](#)

On the next screen, enter the license code you received in the box and click Next.

[blocked URL](#)

You'll see a message that your license has been applied. Click Next, then Finish.

[blocked URL](#)

Your SPSS license is valid for the remainder of the academic year. You'll have to request a new code from the form and re-run the License Authorization Wizard each year.

Install for Mac

You will need to be logged in as an administrator on your computer to complete the installation.

First, fill out the [SPSS Authorized License Request](#). You must be logged in with your CNU account to fill out the form. If you're installing SPSS from the links in this article, choose 27 for your version number.

Once you do that, you'll receive an e-mail with your license number. You'll need that later in the process.

Download SPSS from [this download link](#). If you're already signed into CNU Connect, you'll immediately see the download link. If not, you'll see the Google sign-in page. Sign in with your CNU e-mail and password.

[blocked URL](#)

Either way, you'll then see the download link. Click on the Download button to download the file.

[blocked URL](#)

As the SPSS installer is a large file, you'll get a warning that Google Drive is unable to scan the file for viruses. Since this is a trusted CNU drive, click "Download anyway" and the file will download.

[blocked URL](#)

Click on your download, and double-click SPSS_Statistics_Installer.

[blocked URL](#)

You'll receive a notification that the installer was downloaded from the Internet. Click Open.

If you aren't logged in to your computer as an administrator, you'll be prompted to enter an administrator username and password.

Next, the installer will appear. Choose the language which you want to use to install SPSS and click OK.

[blocked URL](#)[blocked URL](#)

Click Next.

[blocked URL](#)

Accept the license agreement and click next again.

[blocked URL](#)

You'll be asked whether or not you want to install SPSS for Python. If you use Python, choose yes, otherwise choose no. If you don't know what this is, choose no.

[blocked URL](#)

If you choose yes for Python, you'll have to accept two more license agreements.

[blocked URL](#) [blocked URL](#)

You'll be asked where to install SPSS. The default is good, so click Next.

[blocked URL](#)

Then, click Install.

[blocked URL](#)

The install will start. When it's finished, you'll have the option to run the license wizard. Make sure the box is checked and click Done.

[blocked URL](#)

The License Wizard will start. Click Next.

[blocked URL](#)

On the next screen, choose "Authorized user license" and click Next.

[blocked URL](#)

Enter the license code you received in your e-mail and click Next.

[blocked URL](#)

You'll get a message saying that the authorization succeeded. Click Next.

[blocked URL](#)

Click Finish, and your license will be applied.

[blocked URL](#)

SPSS will then function.
